vard, Ellwood City. Strehler told
police he was traveling north to
New Castle, and at the approach to
the hill, passed a car going in the

noticed the boys walking up the hill

he was unable to check his speed
in time and his auto struck both the
pedestrians.

PA NEWC OBSERVES

The girls had another big inning
at the Jameson Memorial Hospital
over the weekend, not a single boy
being born. Included among the
births were twin daughters to Mr.
and Mrs. Ernest Dambrough of Por-
tersville.

While weather conditions have
moderated somewhat today, over
the week end, the first coating of
ice was noted on the ponds in the
vicinity, due to the fact that
weather hung around under freezing
for a couple of days.

Report is heard that the new
section of highway on Route 18
from the Farrell turnoff to Hermit-
age has been completed. The new
road gives a direct connection be-
tween the two points instead of go-
ing via the Sharon-Mercer road.

Folks may question the weather
record today, which showed a
minimum temperature, during the
24-hour period ending at 9 o'clock
this morning, of 36 degrees. This
was the reading when the ther-
mometers were set at 9 o'clock Sun-
day morning. The low tempera-
ture at 9 o'clock this morning was 56
degrees.

Dimouts ordered as a result of the
coal strike, will bring the city back
to wartime conditions once more.
Dimouts existed for some months
during the war years, it will be
recalled. Idea behind the dimouts
is to save coal for generating elec-
tricity, Pa Newc understands.

Seek Agreement On Inventory Of Troops

By GEORGE DURNO
(I. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., Nov. 25.—The
United States, Soviet Russia and Great Britain will try to work
out in open session today their dif-
ferences on a world-wide troop in-
ventory and disarmament.

Biggest bone of contention since
Soviet Foreign Minister V. M. Molotov
first presented his twin suggestions
for an armed forces count and a world reduction of armaments
has been Britain's insistence that
the two be linked.

Molotov has taken the position
that disarmament is so complicated a
problem that the armed force in-
ventory should come first.

The American delegation agrees
with Russia on this score, having

Foreign Ministers To Tackle Italian Treaty

By PIERRE J. HUSS
(I. N. S. Staff Correspondent)

NEW YORK, Nov. 25.—The Coun-
cil of Foreign Ministers, reconven-
ing at the Waldorf after its fourth
consecutive week, will test
its mettle in the next days on thirty-
five unsettled points of the Italian
treaty.

Although the basic clash inview-
points and ideologies between Russia
and the west continues to be a
barrier to common solutions on any of
the five treaties, predictions by
competent observers concur that
agreements will be achieved before
Christmas.

The same sources are confident
that a good start will be made also

Probe Of Military
Government In
Germany Unlikely

WASHINGTON, Nov. 25.—(INS)—
Secretary of War Patterson was
expected to confer this afternoon
with the Kilgore committee on its
proposed investigation of military
government in Germany, but it ap-
peared that the inquiry was "kaput"
for 1946.

Republican members of the senate
war investigating committee, who
will be in control after Jan. 3, said
they had just about given up hope
of getting any of their Democratic
colleagues to go to Germany.

Sen. Brewster (R) Maine, who is
slated to be the new chairman after
the Republicans take over, wasn't in
town to keep the date with Patterson
on. He asked Sen. Ferguson (R) Mich.,
to take his place with Sen.
Kilgore (D) W. Va., the present
chairman at the Pentagon confer-
ence.

Violence Marks Korean Politics As Party Forms

SEOUL, Nov. 25.—(INS)—A hand grenade explosion which wounded two newsmen today marked formation of the Southern Korea Labor Party composed of three left-wing organizations.

The grenade was hurled into a crowd of spectators, slightly wounding the two Korean newspaper reporters.

The incident climaxed a two-day meeting in Korea in which delegates voted to form a labor party comprising the Korean Communist Party, the People's Party and the Southern Korea New People's Party.

Meantime, indefinite postponement in convening the Southern Korean interim legislative assembly was seen today when Lt. Gen. John Hodge invalidated the election of representatives in Kwang-wan-do province and the city of Seoul.

The elections were invalidated by the American occupation commander because of "illegal procedures." It is expected new elections in the invalidated districts will be held within the next 10 days.

Political advisors to the U. S. occupation authorities also expect Hodge to begin selection this week of the 45 appointive representatives who will make up half of the total number of legislators.

FOREIGN MINISTERS TO TALK ITALIAN TREATY

(Continued from Page One)

on initial reviews of problems involved in drafting the treaty for Germany next year.

Session At 4 P. M.

The session scheduled for 4 o'clock this afternoon inaugurates another of Big Four efforts to crack the deadlock on Allied troops with withdrawals from the Trieste area, an issue which has held up completion of the accord over the free territory statute, key to the Italian treaty. At Saturday's brief meeting, this thorny problem was left dormant to give the ministers—in particular the Soviets—the opportunity of reconsidering it in all its aspects over the weekend.

There is no yielding in sight by either side on the disputed point of fixing a definite date for the recall of the British and American troops now in the Trieste region. Soviet Foreign Commissar Molotov insists on assurances that they go out three months after the Italian treaty is signed. Secretary of State Byrnes, British Foreign Secretary Bevin and France's Couve de Murville contend with equal firmness that only the Trieste governor or the security council can fix such a date, depending on the situation in the free territory at the time.

Junior Guild Charity Ball Most Successful

"Pigs is pigs", Ellis Parker Butler once said, but with all his knowledge of porcine lore Mr. Butler never imagined anything like "Puritan Pigs", which featured the annual Charity Ball of the Junior Guild of the Jameson Memorial hospital in the New Castle Country club Saturday night, November 23.

"Puritan Pigs" has nothing to do with a floor show or a livestock exhibit. It does have everything to do with the decorations for the ball. Out of the facile minds of Bill Parker and James Frew Jr came the idea and the result was 20 or 30 paintings of the early New England era, with all the characters having the head and faces of pigs. Two large murals were hung at either end of the hall. One of them was a satire on the "Landing on Plymouth Rock" with an LCP (Landing Craft Pilgrim) standing off shore. Each of the smaller paintings depicted some phase of Puritan life with a touch of humor. There was the one which showed a group of witches picketing the church of Cotton Mather. And another showing a Pilgrim tiptoeing his way upstairs after a hard night, all unaware of the good wife waiting at the top with a blunderbuss.

The entire decoration was unusual, it was well done, and about the best thing the charity ball has seen in many years. Assisting Mr. Parker and Mr. Frew were a lot of volunteers of the guild, with styles running from a touch of Velasquez to a lot of Vargas.

The crowd attending was large and aside from profits realized on ticket sale, additional funds were raised during the evening. The net benefit to the Guild should be satisfactory.

The Junior Guild of the Jameson Memorial Hospital is headed this year by Mrs. Thomas J. Kelly Jr. as president. In charge of the various arrangements for the ball Saturday night were the following committee chairmen: general chairman, Mrs. Gordon Klein; tickets, Mrs. James M. Smith Jr. and Mrs. John W. McIlwraith Jr.; prizes, Mrs. Leyshon Richards; decorations, Mrs. Francis S. Sowersby; co-chairman, Mrs. Leland W. Hamilton; music, Mrs. George Z. Miller; refreshments, Mrs. W. Russell Allen, co-chairmen, Mrs. J. B. Matthews Jr., Mrs. W. D. Wallace, Mrs. Robert Garland and Mrs. Joseph George; publicity, Mrs. John P. Byers.

LOWER STANDARDS...

FOR A "MESS OF POTTAGE"

DO NOT SELL YOUR BIRTHRIGHT OF LIBERTY...

For POLITICAL MEDICINE dressed up as "Social Security"—but which in reality would turn out to be lower standards of medical practice; less health; regimented patients; doctors and dentists hampered by red tape; regimented workers, nurses, druggists, employers and hundreds of thousands in health fields.

The shifting of Federal and State politics is no place for the administration of personal medical service, in freedom-loving America... In all countries where COMPULSORY Health Insurance Taxes are levied on workers, the quality of medical service suffers, non-medical bureaucratic rules and regulations harass both doctor and patient.

Any such system of Political Medicine as is proposed by bills now in the hands of Congress, would pull more than three BILLION dollars a year out of workers' pay envelopes, turn it over to "Moral Dictators" and give you exactly the "mess of pottage" pictured.

America now has the highest level of health on earth, and your doctor and his fellow physicians are doing everything possible to improve every phase of medicine, and extend its benefits to all mankind.

WASHINGTON CALLING by MARQUIS CHILDS

Seek To Prevent Lewis Martyrdom Pose

WASHINGTON, Nov. 25.—In the long conferences leading up to the contemplated action against John L. Lewis, the men responsible for the decision were deeply aware of one danger. If it was humanly possible, they wanted to avoid draping the cloak of martyrdom around Lewis' portly figure.

Coal Administrator J. A. Krug has among his advisers men who know Lewis very well. They warned that the boss of the Miner's Union would like nothing better than to wrap himself in the tragic mantle of martyrdom and stalk across the national stage.

Therefore, the argument went, any effort to obtain a jail sentence was out. If the government should succeed in putting Lewis in jail, he would be in a position to make himself a hero to the labor movement. It would be handing the old tragic role in which he could outshine all the purveyors of gloom and doom that ever trod the boards.

Substitute for Jail

As a substitute for jail, another strategy was proposed. That was to ask the court to fine Lewis personally and to fine the union for each day that the strike continued. For example, if a fine of \$50,000 or \$100,000 was imposed for each day that the coal miners remained out, this would in a week or two add up to an impressive sum. Even when measured against the \$13,000,000 the miners are said to have in their treasury, it could not be laughed off.

Another suggestion was to ask the court to enjoin all the funds of the United Mine Workers. Lewis has the authority of a dictator over the UMW war chest. He makes huge expenditures entirely on his own. To tie up his funds might handicap his prosecution of the strike, even though in the past the miners have never received any strike benefits out of the union funds.

The bleak reality confronting Krug and his aides is that no punishment can compel the miners to go back into the pits. So long as they feel their kind of tribal loyalty to Lewis, their chief, they will stay out.

Reports from the coal-mining districts indicate that, while this loyalty may not be as strong as it was, Lewis' hold is still sufficient to compel obedience.

Somewhat Nervous

While Krug and his assistants wrestled with the question of what to do about John L. the President was in Florida. With him was John R. Steelman, director of the Office of War Mobilization and Reconstruction, and rated as a friend of Lewis. The fact that Steelman was at the President's side made the group in Washington a little nervous. They remembered Mr. Truman's earlier praise as a labor leader to be trusted.

The President is confronted with an angry clamor from those who believe Congress should be called back to Washington. Those who have raised this clamor seem to forget that the Congress to come back would be the old Congress that was repudiated by the voters on November 5. It is hard to see what advantage there could be in calling back a lame-duck Congress. Appearances may not help, and even new laws might fail to budge the adam-ant bulk of the Miners' chief.

Before the crisis had reached the show-down stage, one of the President's advisers suggested that a congressional committee be named to consult with the White House on the Lewis demands. Both Republicans would have accepted the responsibility in a question. In any event, the idea was not taken up.

Curious Sidelight

One of the curious sidelights on what is fast becoming a major tragedy is the action of the CIO convention. A resolution was adopted condemning the government for obtaining an injunction restraining Lewis. Thus Lewis' hated enemy came to his aid.

If the coal strike goes on to the bitter end, as it did last spring, then the CIO will be one of the chief sufferers. As the steel mills slow down and close, steel workers will go without pay. So will the workers in the auto industry and a hundred other lines.

Walter Reuther, head of the Auto Workers, talks about a \$12,000,000 fund to fight the battle for higher wages. But where that fund will come from if industry is stopped is another question.

A prolonged coal strike will loose every sort of destructive force, not only inside this country but throughout the world. It can produce a leftist revolution in France. The coming depression (pronounced recession) in the United States will be hastened, while at the same time the price of scarce articles will be forced upward. The miners themselves have not recovered from the 59-day strike of last spring. They will be among the 130,000,000 victims of one man's stubborn lust for power.

Strikes Imperil Tax Cuts

It has remained for Representative Carlson, an expert on taxation, to point up a threatened result of John L. Lewis' coal strike that seems to have escaped attention.

If this strike continues for long it will smash any hope for the promised reduction of income taxes by the new Republican Congress.

Tax cuts depend on the amount of government revenue, which comes from the national income, as well as on economy. Business and industry pay taxes on their receipts after deductions. Individuals pay taxes from their earnings on a similar basis.

Strikes cause industries to shut down or curtail their operations. Unemployment dries up earnings. Everybody loses and so does the government. Those still employed can't have their tax burden lightened so long as the government needs the money to carry on.

That's the sad story in a nutshell. So both as taxpayers and consumers the people will have to foot the bill for the Lewis strike and all other strikes, paying double for these items of production that have become too costly to be borne.

Season

New Castle church basketball season is here again. Tonight at the "Y" floor the league gets under way with the claving of three games. The first game will start at 7:15 o'clock. The loop will play Monday, Wednesday and Friday nights, it was announced by Jimmy Dart, physical director at the "Y" and league supervisor.

There is considerable interest being shown in the league this year, with all teams adding strength in players who have returned from service since the league ended last spring.

Champs Drop Out

The championship Sacred Hearts team, of last season found it impossible to enter this year and their spot is being taken by the Central Christians, a team that had a franchise years ago and always turned out tough teams.

The early dogs have the Second U. P. and First Baptists loaded with stars and appearing to be the toughest in the league, with the St. George and Third U. P. teams also a lot stronger than last year.

All of the best basketball players in New Castle will play in the church league, making it one of the finest leagues in the city and one of the toughest.

Special To The News

NEW WILMINGTON, Nov. 25.—Westminster's towering Titans opened the basketball season at New Wilmington Saturday night by defeating the Akron Goodyear Rubbers 46 to 32 with Coach Grover Washabaugh using 14 players in the game.

The game served as a means of Washabaugh using various combinations and seeing what his charges could do under fire. Akron did not supply much opposition being ahead but once 3 to 1, then Freddy Paine tied it up with the first Westminster field goal at home and from there, the Titans merely coasted along.

McLhinney High Scorer

Out of the game came Bill McLhinney the Canonsburg flash to be high point getter with 18 points on six field goals and six foul shots, followed by Holidays Cove, West Virginia, Fred Paine with 19 points. Looking very good in his first home game as a Titan was Clive Shaffer former New Wilmington High star, with three of the points, and the playing of Bruce Waener former Cochranton High star was very pleasing.

The veterans Don Heddleston, Chester Debinski, and Dean Nelson supplied 11 points between them, with Tom Jones a first string tub last year getting a lone point when used at center.

Reserves Lose

Best in the Akron lineup was Raymond with 13 of the points, while the great Kenny Griffiths was held to eight points, by the stubborn Titan defense.

The Westminster team will open the collegiate season at home on December 10th by playing St. Vincent's college team. In the preliminary game Saturday night the Sharon Buhl Club nosed out the Westminster Reserves 50 to 47 in a hotly contested battle.

Earl J. Watt Post No. 638 of Bessemer expects a floor aggregation in the field this winter which will give a good account of itself.

The team will be under the management of Wilbur Kursel and Bill Glass. Kursel was third in scoring in the Air Corps league in North Africa, where he was stationed. Others on the squad include Bill Peito, Paul Tasota, Evar Swanson, Richard Meholic, Bill Ash, Richard Scott, Robert Rose, Jack Connor, John Robinson and Joe Hartshorn. Hartshorn was a floor star at Geneva College. Paul Tasota, who will hold down the pivot post, is six feet four inches tall and played center on the team which won the trophy in the Aleutian Islands.

Most of the other members of the squad played on the high school teams at Bessemer or Mt. Jackson, so that, all in all, the post expects to have a strong outfit. The squad will sport the colors of red and black.

Bears Shaping Up Strong For Turkey Day Classic

With Alliance Aviators

With an indicated capacity crowd anxious to see the "Battle of the Stars" at Tippart Stadium Thanksgiving Day, the Wabash Bears semi-pro grididers held a long workout at the E. & A. field Sunday under Coach Tippy Richards. The powerful Alliance, O. Aviators will furnish the opposition Thursday. This will be the final football game in New Castle for 1946.

The kickoff is slated for 2:30 o'clock and a gala holiday crowd will be in the stands, a sea of color in their Thanksgiving Day regalia.

William Domenick, president of the Bears, has secured a big "Swing Band" under the direction of Carl Leone and the men will furnish some hot and lively tunes prior to the game and during the half.

Wabash Bears Ready

Coach Tippy Richards, gave the Bears a two-hour scrimmage drill Sunday and the first team gave the reserves a shoving around the field which spells a bad afternoon for the invading Ohioans Thursday. Big "Hank" Cardella the tackle who goes

to 215 suffered a slight charleyhorse, but will be ready for play Thursday, it was announced.

The Bears are mostly all former New Castle High and Phil Bredenbaugh charges of other years, not one man having gone to college.

The Alliance team will feature the triple-threat man, Bill Grimes, great Negro All-American from Morris Harvey College. Grimes is adept at running, kicking and passing. J. Bell of Mt. Union college is another fine player on the Alliance team.

Ticket Sale Brisk

The ticket sale for the game has been quite brisk. The tickets are on sale in various parts of the country, including New Castle, Ellwood, Wampum and West Pittsburg.

The Bears are working out today, Thursday and Wednesday at the E. & A. field 4 to 5 o'clock to get in razor-edge condition for the grueling battle that awaits them.

The Bears will use the proceeds of the game for improvements at their new club rooms at the corner of Cherry and Cedar street in Mahoningtown.

Upon his return he talked to Moran, advised him to go opposite the advice of Horace Greeley and "to go east" where fat purses await successful fighters.

He said Moran, who is a terrific puncher, agreed to make the trip and the day following Thanksgiving they will depart for New York headquarters for America'sistic gladiators.

Further Relaxation Of Installment Buying Is Urged

WASHINGTON, Nov. 25.—(INS)—The U. S. Chamber of Commerce today urged withdrawal of government credit guarantees and further relaxation of consumer installment buying.

The proposal was advanced after the organization recommended a 25 per cent cut in personal income taxes, drastic reductions in other rates, and a reduction in the government spending budget for the next fiscal year of from forty-one billion dollars to less than twenty-five billions.

Credit guarantees of the Reconstruction Finance Corporation and consumer credit and security margin controls of the Federal Reserve system were the targets of a report on "government intervention and bureaucratic action in the field of credit", which was approved by the chamber's board of directors.

San Francisco Hopes To Become 'World Capital'

Hopes Of Becoming Home Of
United Nations Is Reported
As Increasing Now

SAN FRANCISCO, Nov. 25.—(INS)—San Francisco's hope of becoming the permanent "world capital" ran high today as members of a United Nations' house-hunting committee left encouraging words behind them before they left for Boston by plane.

The 13-member UN sub-committee ended a four-day stay in California by issuing a formal statement in which San Francisco's two and a half square-mile presidio was singled out for particular praise.

Dr. Eduardo Zuleta Angel of Colombia, chairman of the site commission, said there was a "possibility and a probability" that the military reservation would be offered as a site by the U. S. government.

Historically, the presidio is the birthplace of San Francisco, dating from March 28, 1776, when Lieut. Col. De Anza in the name of Spain ordered a fort be built there. It juts into the Golden Gate astride the approaches to San Francisco's famed Golden Gate bridge.

In the statement issued by the committee, it was pointed out that the United Nations owe a "debt of gratitude" to its historic birthplace, the city of San Francisco, where the UN charter was formulated. The committee statement added:

No Final Decision

"As we have stated before, no final decision can be made now. Our report will go to the full headquarters committee and then the general assembly will make the choice for our permanent site."

"At this point, however, we can say that the facilities offered by San Francisco have deeply impressed us. We are most especially impressed by the very important possibilities inherent to the presidio."

At a news conference held before the committee left, Dr. Zuleta said the committee was attracted by the presidio's convenient location within the city limits, its commanding view and its collection of buildings already the report to the full headquarters commission on sites will be made early next month.

Committee members and their staff left last night by plane for Boston, where they are expected to arrive about noon today to inspect proposed sites in the "Hub City." Before traveling to San Francisco, the group inspected sites at Philadelphia.

Report Russians Building Atomic Energy Project

LONDON, Nov. 25.—(INS)—The London News Chronicle said today that Russian scientists are building a "gigantic atomic energy project" on the Black sea with the aid of German physicists.

The newspaper's dispatch from Istanbul said the project was under way near the port of Sukhumi. It was based on reports from travellers who arrived in Turkey from Russia.

This is definitely not true."

One lady recently took RHU-AID three days and said afterward that she never would have believed such a "wonder medicine" existed. She says she couldn't raise her left arm more than a few inches. Rheumatic pains afflicted the muscles of her shoulder and arm. She could hardly move the fingers on her left hand. Now this lady's rheumatic pains are gone since she got RHU-AID and she says she can use her left arm as well as her right. In fact, she says she simply blesses the day she got this medicine and she feels like an altogether different woman.

RHU-AID is the new liquid formula containing three valuable medical ingredients. "I have no wallet," said Cilio.

The disusted robber tossed the \$2 back at his victim and walked out.

If he had frisked Cilio, he would have found a wallet containing \$150.

**BANDIT FOOLED
BY HIS VICTIM**

PHILADELPHIA, Nov. 25.—(INS)—A certain gunman is probably kicking himself today because he accepted his victim's word.

The intruder, brandishing a German revolver, burst into the home of Albert Cilio, 30, a veteran, and his sister.

"All right, let me have it," the bandit ordered, and Cilio pulled \$2 out of his pocket.

"How about your wallet?" the burglar demanded.

"I have no wallet," said Cilio.

The disusted robber tossed the \$2 back at his victim and walked out.

If he had frisked Cilio, he would have found a wallet containing \$150.

Butler Soldier Loses Overcoat Holding \$20,000

Leaves Coat With Poker Winnings On Bus While He Dined At Midway Stop

PITTSBURGH, Nov. 25.—(INS)—That old maxim, "easy come, easy go" could well be applied today to Pfc. William W. Gruber, 22, of Butler—but then he's probably sick and tired of hearing it.

Pfc. Gruber lost his army overcoat with a cool \$20,000 sewed in its lining while returning to his home in Butler for the week-end.

Gruber dazedly said:

"It's hard to believe, but I won it on two hands in a poker game. It's even harder to believe that it's gone."

The soldier explained that he won \$10,000 in cash, a watch set with jewels worth \$4,000 and two diamond rings valued at \$6,000 in a poker game before his trip home from Fort George Mead, Md.

He told police that his bus made a stop at Midway on the Pennsylvania turnpike and he got off to get something to eat, leaving his coat on his seat.

"I pulled out without me while I was in the men's room," he sadly declared.

Gruber caught the next bus to Pittsburgh and reported the missing coat. Bus company officials said no one had turned it in and it was not on the bus.

City detectives were investigating the theft, but declared that they had "little to work on."

Gruber said:

"It's hard to believe."

Maritime Strike On West Coast Is Now At End

SAN FRANCISCO, Nov. 25.—(INS)—Pacific coast ports from Mexico to Canada were expected to resume full-scale operations today for the first time since Oct. 1, when maritime workers walked off their jobs.

The last major maritime strike ended Saturday when the AFL Masters, Mates and Pilots signed a new contract with employers. Previously, the CIO longshore and marine engineers unions negotiated a settlement with their employers.

The first trickle of ships began to move from ports yesterday. In San Francisco 1,000 longshoremen were dispatched last night to work cargo on more than a score of ships.

West coast shipping industry spokesmen estimated that some 300 million dollars in coast cargoes had been delayed by the strike.

Airlines were flying some of this cargo to inland points as fast as it could be unloaded.

At Coos Bay, Ore., where the tieup began weeks previous to the general maritime strike, lumbermen reported 53 million board feet were awaiting shipment to house-hungry coast cities.

CHILD DIES OF BURNS

PITTSBURGH, Nov. 25.—(INS)—The coroner's office today reported that three-year-old Dolly May Williams, Pittsburgh, was fatally burned Saturday night when her clothing caught fire from an open gas stove flame.

**No Excuse For Missing
Church; Take Pick Of 80**

New Castle's religious life is well provided for, if having over 80 churches, tabernacles, temples, and missions is any indication.

According to the records of Rev. R. B. Withers, secretary of the Ministerial association, the town has sixty-four well-organized Protestant churches besides a number of smaller not-so-well organized groups, ten Roman Catholic churches, three Orthodox churches, two Jewish synagogues, and a congregation of Mohammedans. A group of Jehovah's Witnesses, and a Mormon congregation, are also to be found here.

The Protestant groups, the Methodists are slightly in the majority, with the Presbyterians following up. The Methodists have eleven congregations, including Free Methodists, Wesleyan, and Primitive Methodists. The First Methodist church has probably the largest congregation of any of the Protestant churches.

Presbyterian churches, including the Reformed and the United Presbyterians, are second with eight congregations, several of which also have very large congregations.

The Lutherans have five churches, the Baptists have three, the Episcopalians three, the Missionary Al-

**More Violence
In Beer Dispute**

PITTSBURGH, Nov. 25.—(INS)—Police today investigated the weekend bombing of a Pittsburgh beer distributor's plant, as the AFL Teamsters Union requested postponement of joint meeting with CIO officials scheduled for today to settle the jurisdictional feud.

Police said a bomb was tossed into the distributing plant of Jack Ryan early Sunday morning, wrecking the inside of the building and a truck.

A three-foot length of fuse found at the scene of the blast led police to believe that the bomb was made of a stick of dynamite.

Earlier, Anthony J. Fedoroff, CIO regional director in Pittsburgh, informed State Secretary of Labor William Chesnut that the teamsters had requested postponement of today's meeting for reasons beyond its control.

The message of award added:

"By his magnificent victory over Japan, he (MacArthur) was one of the principal artisans of success of the allies."

Total U. S. gem diamond imports in 1945 amounted to \$107,367,028.

**Reveal Narcotic
Thefts From Army
Transport Planes**

WASHINGTON, Nov. 25.—(INS)—Thefts of narcotics and other medical supplies from Army transports came to light today.

As a result, Secretary of War Patterson and Gen. Dwight D. Eisenhower, Army chief of staff, have issued strict instructions for preventing a recurrence of such robberies.

They took this action in War department memorandum No. 55-455-1 which stated:

"Reports of thefts of narcotics

and other medical supplies from Army transports have been received in the office of the chief of transportation."

A further check revealed that among the supplies stolen were morphine syringes which are carried in first aid kits aboard life boats.

A letter from the Treasury Department Bureau of Narcotics to the office of the chief of transportation called attention to the theft.

The morphine was said to have been taken at Seattle, Wash., from the Army transport Hunter Liggett.

Mother Snader heard her accom-

when she arose to acknowledge the

tribute there was just a suspicion of tears.

"I liked to cook and I liked people who ate," she said. "All who

ever lived at my house were inter-

esting and I enjoyed having every-

one of them."

Former boarders scattered across

the nation sent their one-time land-

of ceremonies, presented her with

HARRISBURG, Nov. 25.—(INS)—The department of public assistance indicated a sharp increase in relief as a result of the bituminous walkout.

During the week ended November 16, the department reported, 332 persons abandoned relief benefits and the decline was viewed by officials as an "indicator of the comparatively settled employment conditions immediately preceding the current mining dispute."

Communists Lead In French Voting

PARIS, Nov. 25.—(INS)—Complete returns from metropolitan France, except for Corsica, gave the Communists a slight margin over the popular Republican movement today in the vote for the council of the republic.

The Communists, who won the largest number of seats in the vote for the national assembly two weeks ago, obtained 24,291 electors.

Candidates running on affiliated M.R.'s gave them 233 more.

The Popular Republicans, who finished second in the assembly election, had 24,151.

The Socialists were a poor third

with 14,383. The Republican rally group won 3,128 places and a right-coalition 3,089.

Absentions were heavy, with about 26 per cent of the electorate staying away from the polls.

The voters balloted for approximately 82,000 grand electors, 4,000 department councillors and 50 deputies who will meet early in December to name 315 members of the council.

The council will act mainly in an advisory capacity but will meet with the assembly to name the first president of the fourth French republic.

The Communists, who won the quietest spot in the world is being built at Murray Hill, N. J., by the Bell Telephone Company. It will be completely sealed, with special noiseless air conditioning and used to improve telephone communication.

REVEAL MARRIAGE

HOLLYWOOD, Nov. 25.—(INS)—Jack Dawn, filmland's noted beauty expert, revealed today he and his 18-year-old secretary, Gloria Dall, have been married nearly six months.

Dawn said he and Gloria were married in Mexico, but "wanted to keep it a secret." He added:

"I've never been happier in my life. Gloria is a wonderful girl."

Dawn is responsible for the makeup of MGM beauties such as Greer Garson, Anna Turner and Marie McDonald.

Out of every 100 working women, 34 work to support themselves and their dependents; eight work to own home, to be free of debt or to educate children, and eight work because of interest in the job.

Miners Striking In Sympathy May Return To Jobs

GILLESPIE, Ill., Nov. 25.—(INS)—Leaders of the Progressive Mine Workers of America Local No. 1 were uncertain today how many members would return to work, even though the local voted to end a four-day walkout.

The vote yesterday was 208 to 52 to go back to the pits. But 540 members did not vote.

The ballots were cast at a meeting called by James Campbell, president of the local whose members walked out of four mines of the Superior Coal Co., Thursday night in sympathy with John L. Lewis' United Mine Workers.

John Marchiando, president of the PMW, appealed to the miners to return to their jobs. He said the union now is negotiating with the Illinois Coal Producers' association for higher wages and shorter hours.

John Mathis, president of the PMW, appealed to the miners to return to their jobs. He said the union now is negotiating with the Illinois Coal Producers' association for higher wages and shorter hours.

Foreign Loan Grants Are To Be Continued

WASHINGTON, Nov. 25.—(INS) Republican leaders in both the Senate and the House indicated today that the next Congress will continue the present government policy of granting loans to foreign nations. Spokesmen on both sides of the Capitol said, however, that the Republican-controlled 80th Congress would pay closer attention to the amounts loaned, interest charged and security required from foreign government.

Sen. Millikin (R) Col., a ranking Republican member of the Senate Finance and Banking and Currency committee, declared:

"In the new Republican controlled Congress there will be no precipitous cut off of sound foreign credits, but everything will be subjected to a careful review and study."

Rep. Wolcott (R) Mich., chairman-to-be of the House Banking and Currency committee, echoed these sentiments. He added:

"We'll play closer attention to such things as interest rates and security."

Wolcott asserted that the Republican-controlled Congress would pay particular attention to the uses to which prospective foreign loans will be put—particularly in the political field. He commented:

"We've just fought a war to preserve Democracy, and I don't think Congress will want to finance foreign governments drifting into some other form of government."

Wolcott anticipated that Congress will grant an expected request from the Export-Import bank for more lending authority, to supplement its presently depleted power to make foreign loans.

He recalled that the bank made informal "feelers" on Congress late last session to have its authority increased by one billion, 250 million dollars.

This report was abandoned, however, Wolcott said, because legislators resisted what they thought would be a billion dollar loan to Russia, through the bank's authority.

Wolcott summoned as a witness Gardiner Symonds of Houston, Tex., president of the Tennessee Gas and Transmission Co., and invited War Assets Administrator Littlejohn to hear his testimony.

Symonds was to testify at 2 p. m. EST.

In announcing that Symonds had been asked to appear, Rep. Slaughter (D) Mo., committee chairman, declared:

"Established pipe lines companies engaged in the transportation of natural gas have indicated their willingness to rent these lines on a temporary basis, and make the claim that they can start the transportation and delivery of gas within a period of 30 days."

Some late nests of the bob white quail are still hatching in early September. The fall shuffle comes in late October. Coveys form and adopt winter locations.

Seek Conference In Effort To End Strike In Studios

HOLLYWOOD, Nov. 25.—(INS)—The conference of studio unions today awaited a reply from film producers on its invitation to resume negotiations to end the nine weeks old jurisdictional film strike.

Strike Boss Herb Sorrell's telegram was sent to Pat Casey, chairman of the producers' Labor committee.

Sorrell said the CSU had asked for immediate meetings with the producers "to discuss conditions" resumption of contract negotiations "and to negotiate contracts."

His telegram asserted the CSU wanted establishment of arbitration machinery to prevent future work stoppages.

Sorrell denied CSU responsibility for bombings and other terrorism in the strike. He declared the CSU had "repeatedly stated" its acceptance of a settlement worked out last year to end an earlier jurisdictional strike between the CSU and the International Alliance of Theatrical Stage Employees.

ST. PAUL, Minn., Nov. 25.—(INS)—St. Paul's public school teachers were scheduled to go on strike today, closing classes for more than 30,000 students, despite action of Minneapolis teachers in postponing their strike, also scheduled for today.

More than 1,100 of St. Paul's 1,65 teachers from 77 schools were involved. They are demanding higher wages and a \$200 cost-of-living bonus.

The postponement of the Minneapolis strike was announced shortly before last midnight by Mayor Hubert Humphrey following an all-day conference with representatives of the teachers of the AFL Central Labor Council and the Board of Education.

EAT AND DRINK

Adam and Eve could eat and drink without much danger of getting diseases from other people.

Since then life has become more complicated. When people eat and drink at home there is not so much danger from infection.

Every year more and more people eat and drink in public eating places.

A good many of these people are infected with contagious diseases, some knowingly and some not.

These diseases are easily passed from person to person in a public place.

There are certain regulations which are intended to prevent the spread of disease.

Food handlers are required to pass an examination before getting a permit to work.

Eating or drinking establishments comply with regulations as to equipment. There are strict rules for the washing and sterilizing of dishes, glasses and table ware.

Cleanliness and sanitation go hand in hand.

A pig may be free from disease but who wants to be a pig.

Nolan was stopping at the Hotel New Yorker and police said they found stolen merchandise valued at \$2,500 in Nolan's hotel room and \$1,700 in cash.

Water Course Dispute Ends

Decision In Controversy Before Court Handed Down By Judge Lamoree

OTHER NEWS OF COURT HOUSE

In an opinion and order handed down Saturday by Judge John G. Lamoree, another water controversy has been settled and as usual the true water course maintained. The case was that of Anthony Servedio and his wife, Rosie Servedio, against Amilia Getchy.

The plaintiffs own land in Sheango township adjoining that of the defendant. A ditch carries water away from the land of the plaintiff which ditch it was charged had been blocked off by the defendant, causing damage by overflow upon the land of the plaintiff. Judge Lamoree ordered the ditch cleaned out by the plaintiffs, and also for them to lay tile in the ditch and pay the defendant \$50 for any inconvenience caused. The order is final if no exceptions are filed within 10 days.

Dim View Of Situation Is Taken By Shopkeepers And Kiddies In City

PHILADELPHIA, Nov. 25.—(INS)

—Philadelphia—the nation's third largest city—prepared to join the brownout forced by the coal strike today—and shopkeepers and kiddies took a dim view of it. At 6 p.m. (EST) tonight, some 150,000 business enterprises in the area will black out all display and advertising illumination and darken Yule tide decorative lights.

Elevator and escalator services will be slashed 25 per cent and air-conditioning units will go off. But store owners mourn most of all the loss of their alluring holiday exhibits.

Carl Fissell, managing director of the Philadelphia Merchants Association, ruefully remarked:

"Christmas can't help but get a poor display, even though this is the first time since the war that many places have bought fancy lighting and equipment. Toy departments will be hard hit."

Fissell said the brownout would sit well with the light-fingered set, though. He asked the police department for "as much more protection as possible" from the expected flood of pickpockets.

Soviet Areas Harvest Short

Soviet Occupied Areas Crops Short Of Normal By 55 Per Cent

BERLIN. Nov. 25.—(INS)—According to latest figures available, the harvest in the Soviet occupied areas of Europe fell short of normal by at least 55 per cent.

This is attributed to the lack of manpower and to the fact that huge stretches of arable land, the owners of which have been expelled or liquidated, are now lying waste.

This catastrophic crop failure would justify a hunger diet of only 750 calories a day. However, for reasons of political prestige, the Sec (Socialist unity party, controlled by Communists) is granting higher rations.

The highest rations are handed out to holders of the "workers' ration book". Next comes the "employees' ration book". Lowest on the list are the housewives. Outside of Berlin the actual amount of food distributed to the population is less than in the capital, occupied jointly by the four powers. Vegetables and coal are very scarce.

It is assumed that by early spring the western zones will have to ship food to the once rich eastern agricultural provinces, unless additional supplies can be brought in from abroad.

Mrs. M. E. Harwood of Indian Rocks, Fla., former resident of this city, has been convalescing at the home of her mother, Mrs. J. C. Sylly, 306 Fairfield avenue, following an operation performed in the Woman's Hospital at Pittsburgh, three weeks ago.

Mrs. Harwood and her husband, Dr. M. E. Harwood, flew to Pittsburgh in October in a chartered plane from Florida. Dr. Harwood has been undergoing treatment on Thursday, November 21, at 8:30 a. m., in St. Vitus church, Rev. Fr. Nicholas DeMita officiated using the double ring ceremony.

Friends and relatives attended. Given in marriage by her father, the bride was lovely in a gown of white satin, with marquisette yoke. Her long veil fell from a crown of seed pearls and she carried a bouquet of white roses, and baby mums, topped with an orchid.

A wedding breakfast was served in St. Margaret's hall, with hostesses being Mrs. Elizabeth Cubells, Mrs. Mary Frenzel, Mrs. Matilda Prenzel, Mrs. Erma Miller and Mrs. Anna Domenick. A reception was held in the evening with 400 attending.

Around Hollywood

By JOHN TODD

INTERNATIONAL NEWS SERVICE STAFF CORRESPONDENT

HOLLYWOOD, Nov. 25.—(INS)—A Hollywood honeymoon delayed 12 years finally begins this week. Going away are Ace Camerman Hal Mohr and his pretty missus, actress Evelyn Venable. They're taking their daughters, aged 10 and 11, with them.

Hal's just gotten six weeks off from Universal after completing "I'll Be Yours" with Deanna Durbin. He and the bride figure there's no time like the present for that delayed trip.

"It seems funny talking about a

honeymoon after all these years, but it's our first wedding trip," Hal told your reporter.

When Evelyn and I were married, we were both busy in pictures, so we couldn't go away. We stayed later by other commitments. Then the babies came along and they kept us tied down.

So we've finally decided to take the trip now, taking the children with us, of course. The kids will have a wonderful time.

"We'll be gone three weeks. First we'll stop off at San Francisco, my home town and then we'll drive up to northern California, visit the redwood forest and then come back via Yosemite.

"It ought to be a great trip."

Richard Greene and wifey Patricia Medina have rented a house up in the Malibu Beach movie colony, and we are trying to sell their big place up on a Hollywood hilltop. With 15 rooms—and a circular staircase—it sits on seven acres with a \$55,000 asking price.

Pat told some of her friends at M-G-M, where she recently completed "The Secret Heart," that the place is much too big for the two of them and that sometimes they

heard queer sounds. But, there are lots of queer sounds in Hollywood.

M-G-M is hoping to bring Lana Turner and John Garfield together again next year. They scored sensational in "The Postman Always Rings Twice," their first together. If arrangements can be made, their second picture will be "Coquette".

Burt Lancaster, a smash hit in his first picture, Mark Hellinger's "The Killers," is going to be the town's busiest boy, the way it looks now. Just finished "Desert Fury," he gets two weeks off before starting "Deadlock" for Hal Wallis, his discoverer. Hellinger will have another picture ready for Burt as soon as Hal gets finished with him.

"We'll be gone three weeks. First we'll stop off at San Francisco, my home town and then we'll drive up to northern California, visit the redwood forest and then come back via Yosemite.

"It ought to be a great trip."

Pan Am Airlines
Demands Domestic
Routes Of Flight

ATLANTIC CITY, N. J., Nov. 25.—(INS)—Paul B. Coffman, president of Standard Research Consultants, Inc., said Saturday that Pan American World Airways must

have domestic routes to maintain growth comparable to that of the major domestic airlines.

Coffman testified at a preliminary Civil Aeronautics Board hearing on Pan American's application for the right to operate domestic clipper routes.

Said Coffman:

Pan American's growth in the past has been at least comparable to that of major domestic airlines. However, these airlines have now been authorized to compete with Pan American.

USC Asks Coast Conference Drop Montana-Idaho

Deplore Condition That Permits Small Schools Same Vote As Large Universities

LOS ANGELES, Nov. 25.—(INS)—The Alumni Association of the University of Southern California today asked for the ousting of the Universities of Montana and Idaho from the Pacific Coast Conference.

Superior Judge Clarence L. Kincaid, president of the USC alumni group, speaking officially for the Trojan grads declared:

"The time has come for reappraisal of our alignment with the conference or withdrawal therefrom."

Swing Vote Over

Deploring that "such small institutions as Montana and Idaho have a vote of equal weight to the larger universities," Judge Kincaid said, "they are not, and it is time to be rid of them."

"This is a major league city and is entitled to major entertainment."

The jurist commanded his university in resisting the vote of the Pacific Coast Conference, whose five-year Rose Bowl monopoly pact with the Big Nine Conference froze Army out of the New Year's Day classic.

Montana and Idaho representatives, he pointed out, swung the conference vote at Berkeley Wednesday to merge with the Big Nine.

Montana has won only seven games since becoming a member of the conference two decades ago.

Score On Pass

Pitt secured the victory in the fourth quarter when Ceccone zipped a pass to End Leo Skladany for the end zone. Bill Coury scored both conversions.

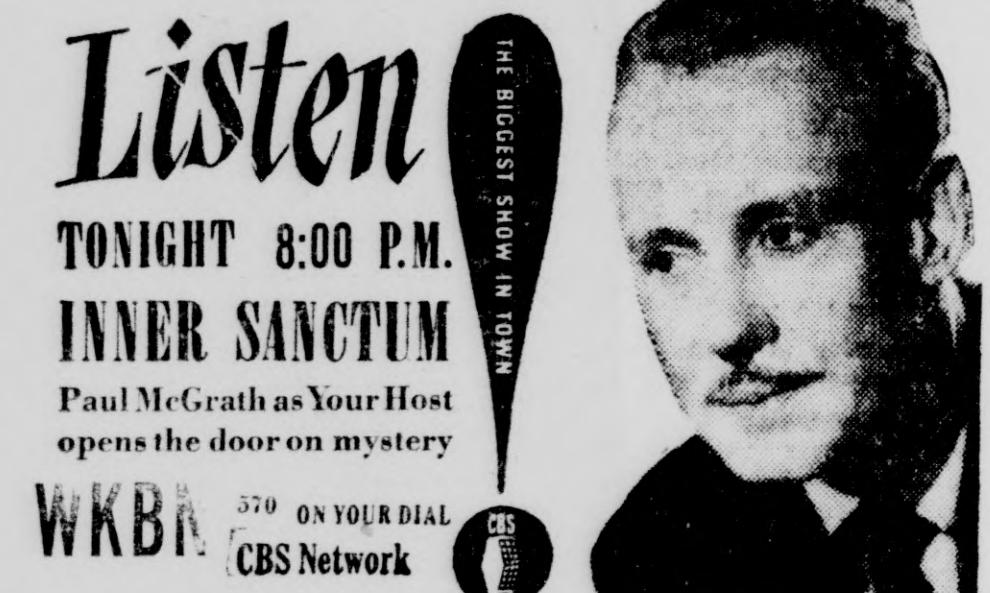

Following the second Panther score, the Lions roared from their own 40 in the last five minutes to score. Penn State's 145-pound back Ellwood Petchell sparked the drive, handing the ball on 12 of the 14 plays in the drive, down to the Pitt one-yard line. Bob Weitzel made the score and the kick was good. The victory gave Pitt 27 wins to 17 defeats and two ties in the annual series.

Injuries Prove Fatal In Tacoma

Bill Jolley, West Clayton street, left Saturday night for Tacoma, Wash., having received a telegram that his brother, Wade, 46, had died from injuries received while at work. He resided here prior to going west.

Coach Herb Gardner was enroute to Canada today in hopes of picking up some talent for his hapless Philadelphia Rockets, who have a record of one win against 13 defeats in the American Ice Hockey league.

Penn State will play host to the eastern intercollegiate boxing tournament for the 10th time in 1947.
